Objective

Computer Science undergraduate and NVIDIA-affiliated AI trainee with hands-on experience in software development, backend systems, AI systems, and scalable real-world applications.

Experience

AI Trainee — GRIL (NVIDIA Partner) — Global Infoventures 2025 – 2026

- Selected for an NVIDIA-affiliated AI training program focused on AI/ML projects and GPU computing concepts.
- Building hands-on experience in AI systems, machine learning workflows, and practical software applications.

Technical Skills

Languages: JavaScript, Java, Python, C, C++
Web & App: React, Next.js, HTML, CSS
Backend & APIs: Node.js, Express.js, FastAPI, REST APIs, JWT, Socket.IO
AI/ML: TensorFlow, Scikit-learn, OpenCV, NumPy, Pandas, LangChain, LangGraph, RAG, Hugging Face, Vector Embeddings, Prompt Engineering
Databases & Cloud: MongoDB, PostgreSQL, Redis, ChromaDB, AWS, Cloudflare R2
Tools & OS: Git, Github, Docker, Linux
Core Concepts: Data Structures, Algorithms, OOP, DBMS, Operating Systems, Computer Networks

Projects

Vercel Service 2026
GitHub

Tech Stack: React, Node.js, TypeScript, Redis, Cloudflare R2

- Built a **Vercel-like deployment platform** for hosting and serving React applications through an automated deployment workflow.
- Designed an **asynchronous deployment pipeline** using Redis-based job queues and worker processes, with Cloudflare R2 for storing project files and build artifacts.

AI Interview Coach 2026
Live Demo — GitHub

Tech Stack: Python, FastAPI, LangGraph, LangChain, Mistral AI, React, Tailwind CSS, Docker

- Built an **AI-powered mock interview platform** using **LangGraph** and Mistral AI that analyzes resumes and job descriptions to generate personalized technical interviews.
- Implemented an adaptive interview workflow with **state management and interrupts**, dynamically adjusting question difficulty and generating follow-up questions based on candidate performance.
- Developed a **React + FastAPI** application supporting PDF resume parsing, real-time interview sessions, automated answer evaluation, and final assessment reports with hiring recommendations and learning roadmaps.

PlayVerse – Gaming Platform (MERN / Full Stack) 2026
Live Demo — GitHub

Tech Stack: React, Node.js, Express.js, MongoDB, JWT, Socket.IO

- Built a full-stack multiplayer gaming platform using **React, Node.js, Express, and MongoDB**, with JWT-based authentication and real-time communication through **Socket.IO**.
- Implemented real-time game state synchronization and backend APIs for game sessions, user management, and gameplay, with a responsive React interface.

Education

Qualification	Institution	Year	Score
B.Tech (CSE)	ABES Institute of Technology, Ghaziabad	2023–2027	-
12th (CBSE)	Kendriya Vidyalaya No.1 AFS Hindan, Ghaziabad	2023	90%
10th (CBSE)	Kendriya Vidyalaya No.1 AFS Hindan, Ghaziabad	2021	92%
